What's new?

- **ConvertXtoDVD 5**

We're busy working on this new version, thanks for your patience, it will be rewarded :-). To find out how much this new version will make your life easier, watch this [demo video](#) of the new interface and new preview.

Remember that you can keep updated in the development and the forthcoming release by checking out [our forum](#).

-**New Facebook Timeline**

Love it or hate it, we couldn't avoid it: our [Facebook page](#) has had a facelift: tell us what you think and click on "Like" if you haven't already done so.

Latest Offer

- **Easter Coupon**

Forget the egg hunt this year and go straight to our [online shop](#): enter the code EGGS-OTCM-VSO and get 20% off your purchase!

VSO Helpdesk

- 1 year vs Lifetime Licenses

When you buy a software from us, you have the choice between the standard 1 year license and the Lifetime. If you're not sure which one to buy, here is the difference: with the 1 year free updates, you can download updates for free for a year after your purchase. Once the year has run out, you can either keep using the last version for free, or decide to buy another year of free upgrades to keep benefiting from the latest technology. The lifetime license, gives you unlimited free updates for life. The best cost-effective option if you don't want to worry about buying upgrades every year. If you wish to switch to a lifetime, let us know.

Did you know?

- How to... burn files, make a CD with your music or burn a video to DVD/CD/Blu-ray ?

Last month we unveiled our latest major update: the new CopyTo 5. Here is a [complete guide](#) on how to use it . Make CopyTo your one and only burning tool!

If you want to contact us please use [support form](#) or our [Facebook](#) and [Twitter](#) accounts.

Bye for now!
