

VSO Software Newsletter n°23

May 2013

In this issue:

- [What's new?](#)
- [VSO Recommends](#)
- [Did you know?](#)

What's new?

- Win a Goldmember licence !

Simply answer [our one-question survey](#) and enter our draw to win one of 5 Goldmember licence we're giving away! Yes, as simple as that!

-Make money telling the world how great we are!

You like our programs and want to tell the world about it (and get some money doing it ?) By joining [our reseller program](#) (in 5 mins) you can advertise our products on your website or blog (whatever its topic) and get a commission for each purchase.

VSO Recommends: When we find something good, we share it!

- Give your PC a deserved spring cleaning

We are often asked: how to make conversions faster and improve the computer's performances? The first thing we recommend is a good PC clean up. At VSO we use [Auslogics BoostSpeed](#) , a great PC maintenance and optimization tool. The program will defragment, clean the registry, speed up and fix your slow computer to make it run as fast and stable as new.

Did you know?

-Embed subtitles into the video

This new option in ConvertXtoDVD 5 enables you to "stick" the subtitles into the video for good. This is useful if you don't want to have to activate the subtitles with the DVD player remote control and if you want the best display quality for the text. Here is [how to easily embed the subtitles](#).

If you want to contact us please use [support form](#) or our [Facebook](#) and [Twitter](#) accounts.

Bye for now! The VSO Software Team
